

Leading global health innovation

PATH is the leader in global health innovation. An international nonprofit organization, we save lives and improve health, especially among women and children. We accelerate innovation across five platforms—vaccines, drugs, diagnostics, devices, and system and service innovations—that harness our entrepreneurial insight, scientific and public health expertise, and passion for health equity.

By mobilizing partners around the world, we take innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. Together, we deliver measurable results that disrupt the cycle of poor health.

For 40 years, our holistic approach has strengthened health systems; created sustainable, market-based solutions; and informed policies to accelerate health impact. We address an array of health challenges, including malaria, HIV, tuberculosis, noncommunicable diseases, and emerging pandemics. Our work increases access to family planning and ensures safe pregnancies, safe childbirth, and healthy children.

OUR GLOBAL PRESENCE

Our **country-based projects** tackle top-priority health challenges at the local and national levels in collaboration with governments, private-sector partners, and others. Our **global partnerships** address international-level health priorities, policies, and financing in collaboration with policymakers, funders, and others.

PATH's expertise

ACCELERATING INNOVATION TO SAVE LIVES

At PATH, innovation is more than just a bright idea. We bring innovation to each step in the journey from breakthrough discovery to global impact.

Devise and test: We develop, adapt, test, and validate health solutions that give people in low-resource settings the tools to transform their own health.

Navigate hurdles: We overcome policy and funding roadblocks, address gaps in supply and demand, and create market-based strategies that bring health solutions in reach for the most vulnerable people.

Introduce: We strengthen health systems, promote healthy behaviors, and improve data for decision-making to support countries in adopting new technologies and tools.

Scale up: We build systems, markets, partnerships, and financing models that pave the way for global impact.

CHARITY NAVIGATOR: TWELVE YEARS AT FOUR STARS

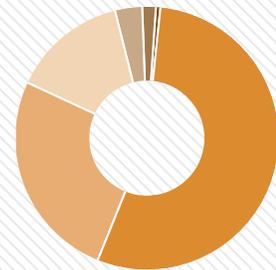

PATH has earned the highest possible rating of four stars from Charity Navigator, the leading independent charity evaluator, for 12 years in a row. The rating recognizes our commitment to careful financial management, as well as our organizational accountability and transparency.

PARTNERS AND FUNDING

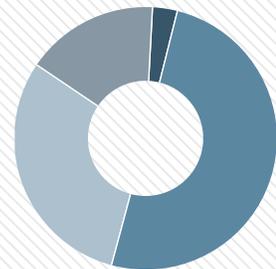

Partnership is essential to PATH's work. With more than 2,000 partners worldwide, we collaborate across sectors to mobilize resources, harness local expertise, and empower countries and communities to build the foundations of good health. PATH's 2015 revenue was US\$289 million.
