

# 2016 Annual Report

PATH'S YEAR IN REVIEW

# From PATH's president and board chair

Dear PATH friends, supporters, and colleagues:

Health equity is the bedrock of economic opportunity, social justice, and political stability. At PATH, we believe access to high-quality health care shouldn't depend on your gender, your income, or where you were born.

PATH is redoubling our commitment to ensuring that everyone has an equal chance for a healthy life. Even as we face a new climate of uncertainty about the future of global health funding and evidence-based science, we feel a sense of great optimism about what's possible.

New technologies, innovative partnerships, and renewed global commitments to improving the health of the world's women and children are unleashing an unstoppable momentum.

As we celebrate PATH's 40th anniversary this year, we are proud of the contributions we have made to global health with your support. In 2016, PATH advanced new vaccines, drug treatments, and diagnostics; expanded access to nutrition innovations and family planning options; helped countries strengthen health systems and prepare for future epidemics; and advocated for funding and policies that support scientific research and innovation.

Together with our partners and generous donors, PATH reaches an average of 150 million people per year in more than 70 countries through this lifesaving work.

All this and more is possible because of your support and partnership. Thank you for your commitment to a world where innovation ensures that health is within reach for everyone.

With gratitude,

**Steve Davis**  
President and CEO
